Kit Includes:

- A. Personalized Seating Chart Back Card
- B. Pre Cut Linen Border Cards x 10
- C. Table Card Template
- D. Antique White Ribbon

You will need:

Scissors, hole punch, and glue stick or double-sided tape.

Thank you for purchasing Weddingstar's Vintage Lace Seating Chart Kit. The following instructions will guide you in completing your customized seating chart.

Instructions

1. Finalize your guests' table assignments and prepare a printed summary for each table. Use the Table Card Template (C) supplied to format the names with hand-writing or calligraphy. Alternatively, go to www.weddingstar.com/templates to download a printable version of the template.

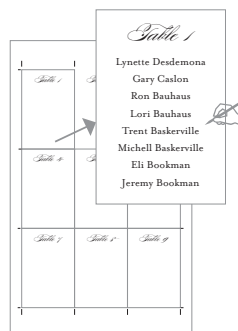

2. Neatly trim the completed Table Cards (C) and apply Border Cards (B) with glue or double-side tape on the reverse side.

3. Following the placement grid, apply the assembled Table Cards to the personalized Seating Chart (A).

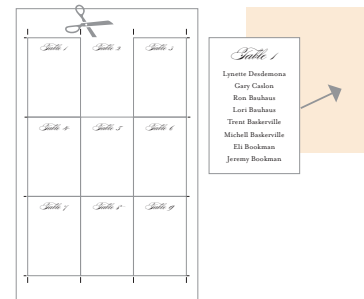

4. *OPTION: Using the ribbon supplied, create a decorative hanger for your completed Seating Chart. Using a paper punch, create two holes near the top of the chart (see diagram). From the reverse side, thread the ribbon through the holes and tie into a pretty bow.

Alternatively, your completed seating chart can be mounted directly to a wall surface and added to a decorative frame.
